

Short Format Digital Storytelling

Typically, a team doesn't simply shoot scenes at a location and return home to edit and produce the footage. However, as a rough estimate, video production rates range from \$1500 to \$10,000 per finished minute. We can work around your budget depending on your needs and on the message/story you are willing to share.

To provide you with a quote, we will need to discuss these variables:

- Estimated **length** of the video
- **On-site** vs. **remote** film shooting
- **Languages** (English, French, both)
- **Project Management** (Time spent organizing logistics, crew, relationships and equipment)
- **Pre-production Costs** (Does your project require scriptwriting? Visual storyboards?)
- **Production Costs** (crew, equipment rental if needed, extra talent, travel expenses)

- **Post-production Costs** (Editing, graphics and animation, sound design, voice over, rendering and exporting)
- **Licensing and royalties** (music licensing, stock footage)
- **Miscellaneous Expenses** (Insurance, any permit or fee, honorarium,...)
- **Client Revisions and Changes** (How many revisions do we agree on ~ Additional revisions may incur extra charges)
- **Delivery and Distribution:** Include costs related to delivering the final video to the client (e.g., digital file, online platform).
